DANCE FLOORS

THEATRE

DRY ICE FOOD & DRINK SERVE

DRY ICE IS SOLID CARBON DIOXIDE IN GAS. THIS IS WHAT GIVES SODA DRINKS THEIR BUBBLES. ON CONTACT WITH CERTAIN FLUIDS DRY ICE GENERATES AEROSOLS OF TINY DROPLETS – A FASCINATING MIST. WHEN DRY ICE IS CONTACTED WITH DRINKS THE DROPLETS CREATED ALLOW THE CONSUMER TO SMELL THE DRINK – A TRICK USED BY TOP CHEFS AND MIXOLOGISTS TO ENHANCE THEIR CREATIONS.

FINANCIAL BENEFITS

01

The cost of ice per serve will depend on how the ice is used and stored but is typically around 5-10p/drink. All our hardware is dishwasher proof and can be used many times.

02

Clients often add 50p to £1+ premium on the smoking drinks and also benefit from increased footfall and upselling to premium products, such as smoking champagne buckets.

03

We will work with you to optimize the use of the ice for your venue. This will include storage and handling and correct use with our products.

DEMO PACKS - £23

- **FOR JUST £23 WE SUPPLY EVERYTHING YOU NEED TO EXPERIMENT WITH DRY AND A SELECTION OF CHILLISTICK PRODUCTS.**

PATENTED TECHNOLOGY

Patented Technology for Dry Ice Safety

Dry ice is very cold and so care must be taken in the design of any system where it is used with the public. Chillistick have patented technology to solve these problems, such as our safety valve use in the chillistick cocktail stirrer.

Our unique, patented Petal Valve allows the dry ice into the chillistick making it safe for use in drinks

High quality moulding is dishwasher proof for long service life.
